

How to Embed Videos

Embedding a YouTube Video

Navigate to the YouTube video.

1. Select **Share**
2. Select **Embed** (**Note:** If desired, under Embed Controls, you may deselect “Show Player Controls”, which will remove the controls at the bottom of the video for user to move forward and backwards while viewing the video.)
3. **Copy** Embed Code

Note: To remove additional video viewing options which could distract the learner at the end of the video, add the following characters after the URL characters within the Embed code: **?rel=0**
